

HHC Conference List

A primary objective of a conference, aside from having fun and sharing knowledge and experiences, is to document the activities of the HP User Community up to the time of the conference. A conference is more formal than, a meeting. Usually a meeting is more casual and less effort is made for its preparation and conduction. Another contrast between a conference and a meeting is the number of people attending and the distances that they will travel for first hand sharing. The difference between the two is not just a question of numbers, it is of quality. Conferences are usually promoted more than meetings. Meetings may provide more quality fellowship time because of their informality. Most of the gatherings of HP users on the list below are conferences, usually of an international nature in that attendees from other countries have made the effort to attend. Please contact Richard J. Nelson, rjnelsoncf@cox.net, or Jake Schwartz, jakes@pahhc.org, for corrections or additions to this list.
