

A Guide to HP Handheld Calculators and Computers

Just Released Fifth Edition – 2007 Conference Printing

*Updated with the latest HP models for the
35th Anniversary of the HP-35*

The definitive guide for HPs!

Collectors, and anyone interested in Hewlett-Packard handhelds, will find this a useful and fascinating guide. Starting with the HP-35, all calculators, computers and the HP-01 watch are listed and described. A set of colour photographs complements the text and underlines developments from the early models to the present range.

Just revised and released. Now with 224 pages. Updated from the 4th edition to include the newest models. Features twelve pages of full-colour photos including some of the latest HPs.

Special 2007 HHC Price: \$25 (all taxes included) plus \$5 for US mailing. Airmail postage to other countries is \$12 for global airmail.
